MELVIN JESSAN

Coimbatore, Tamilnadu

+91 6282869265 melvin93-glich melvin-jessan kit28.24bam041@gmail.com

EDUCATION

B.E – Computer Science and Engineering (AI & ML) - Pre-final Year — KIT-KALAIGNARKARUNANIDHI INSTITUTE OF TECHNOLOGY
CGPA: 7.6/ 10 — **2024-2028**

EXPERIENCE

OCIUZ INFOTECH PVT LTD, Thrissur

- Designed and developed an end-to-end data analytics project using Python, Machine Learning, and Power BI to analyze AI job market and tech salary trends.
- Developed Power BI dashboards integrated with CSV, leveraging data modeling, KPI tracking, budget analysis, and trend visualization to support data-driven decision making.

PROJECTS

AIRA – AI Railway Assistant (Python, Flask, BERT) (Repo)

- Developed an AI-powered railway enquiry and complaint management platform using Python and Flask, streamlining passenger support and complaint handling workflows.
- Developed the Complaint Input Module, Chatbot UI, Frontend Interfaces, SMS Notification System, and Web Scraping functionalities, contributing to an AI-powered railway enquiry and complaint management platform

AI Skill Gap Analysis & Job Recommendation System (Python, FastAPI, NLP, React, Machine Learning) (Repo)

- Developed an AI-powered platform that analyzes user skills, identifies skill gaps, and recommends suitable job roles based on industry requirements.
- Implemented resume parsing, NLP-based skill extraction, job matching algorithms, and personalized learning recommendations through an interactive dashboard.

SmartStudy – Your Exam Prep Assistant (Python, OCR, OpenCV, Groq LLM) (Repo)

- Developed an AI-powered exam preparation platform that assesses candidate readiness through automated evaluation and performance analytics.
- Developed responsive frontend pages using HTML, CSS, and JavaScript, implemented Authentication and Exam Modules, and contributed to building an AI-powered exam preparation platform

93Music – Music Streaming & Live Radio Platform (React, Node.js, Express, MongoDB, JWT) (Repo)

- Developed a full-stack music streaming application enabling users to discover music, preview tracks, purchase songs, and manage personal music libraries
- Integrated secure authentication, purchase workflows, responsive UI design, playback controls, and MongoDB-based data management to deliver a seamless music streaming experience.

TECHNICAL SKILLS AND CERTIFICATIONS

TECHNICAL SKILLS

Programming Languages: Python, Java, C, SQL
Web Development & Frameworks: Flask, ReactJS, NodeJS, HTML, CSS
AI/ML, Data Analytics: NumPy, Pandas, Scikit-Learn, Power BI, LangChain,RAG, OCR Processing, LLM Applications
Databases, Tools & Core Concepts: PostgreSQL, MongoDB, Git, GitHub, Data Structures & Algorithms (DSA), DBMS, Object-Oriented Programming (OOP)

CERTIFICATIONS

- Google Kaggle Generative AI Certification — View
- NPTEL Data Structures, Algorithms and Graph Theory — View
- Basic Image Clssification with Tensor Flow — View
- Artificial Intelligence Primer Certification — View
- Deep Learning and Reinforcement Learning — View

COMPETITIVE PROGRAMMING

LeetCode: Current Rating: 1559 | Solved Problems: 156+ | Top 31.3% Globally | Highest Rating 1638 | View
Codeforces: Current Rating: 850 | Solved Problems: 16+ | Highest Rating : 943 | Position : Newbie | View
CodeChef: Current Rating: 1429 | Position: 2 Star | Solved Problems: 599+ | Highest Rating: 1459 | Global Ranking: 37647 | View
Solved 805+ algorithmic and data structure problems across competitive programming platforms, participated in 109 coding contests, and maintained a 167-day problem-solving days.

ACHIEVEMENTS

- Finalist-Reverse Coding contest at IIT Madras
- Presented research on Organoid Intelligence and intelligent automotive systems at a national-level technical paper presentation. at Hindustan College of Engineering,Coimbatore
- E-Summit Hackathon Finalist : Selected as a finalist among competing teams at the E-Summit Hackathon hosted by IIITDM Kancheepuram.
- Top 5 Finish: Secured a Top-5 position in a 24-hour competitive software development hackathon.
- 36-Hour Hackathon Finalist: Qualified as a finalist in a 36-hour innovation and software development challenge.
